### Mobile App Home Page Redesign

We're redesigning the homepage for our mobile app so the features your members use most often will be front and center. No more hunting for your favorite tools!

### Mobile App Security Update

We're updating our security features to keep your data safe. After 3 invalid PIN entries on our mobile app, the user will be locked out for 60 minutes. This will help provide increased protection from unauthorized lockbox access if an agent's phone is comprised. Of course, your members can always call our friendly Support Team for help if they need help remembering their PIN.
